

The Lord has heard our voice!

For a few years now I have been asking the Lord that He would open a door to give access to the community. In the last weeks, we have united our strengths by praying together. Today, together, we can give thanks to the Lord because He has

My application to work and collaborate as a volunteer during this Covid-19 crisis was accepted by the town hall. I have been contributing by shopping groceries for people who are currently in quarantine and I also help serve dinner to a group of people from India who are under quarantine at a public school in Cartaxo. This initiative has contributed in several ways:

- It has been another way of teaching my sons that when we give we are happier than when we receive.
- It has helped me become more visible in the Cartaxo community circles of bigger influence, which open doors for future opportunities.
- It has been a great opportunity to develop new friendships with competent authorities and fellow voluntaries.

Ask and it will be given!

- That the Lord may use this pandemic to operate a spiritual rebirth in Cartaxo-Portugal.
- That the Lord may give me the courage and wisdom to share the Good Word of Jesus Christ.
- That our life may soon return to normality, so that we may celebrate this blessing in the inauguration of the new building.
- That I may develop trust with the people that I have contacted on a regular basis, in order to share the Gospel: Ana, a social worker; Conceição, a coordinator; Raquel, a fellow voluntary; Rodolfo and his wife, the couple whom we have helped with groceries
- That we may somehow share our testimony with the group of people from India. They are a group of 30 people, illegals in our country who can only communicate in English. They are Hindus and have been living in precarious conditions, all of them sharing the same house. May the Lord open doors and give us creativity to reach to these people with the liberating truth of Jesus Christ.
- That the Lord may protect our health and continually deliver financial provision amidst this crisis that has been affecting the whole world.
