

Dear praying friends,

We had a great time together celebrating our 3rd anniversary. We met at the park, and many joined us. Some friends from Alpha course came and that was really good! Alpha session later that day would be on healing and as Dave Zimel was already with us, he was invited to join and pray for healing for those who wanted. (For those who don't know Dave, He is a good friend who loves Jesus and who has the gift of evangelism and healing). Testimonies were amazing. Many were healed! And because this was over Zoom, one of the ladies invited Dave and Nuno to go to her

home during the week to meet other people and minister to them. All throughout the 13 days Dave was here we witnessed the Holy Spirit moving in amazing ways. People were healed and many came to saving faith in Jesus! We are so thankful and rejoicing with the work the Lord is doing here. **Join us in praising Him! And pray for those who came to Jesus, that they keep close to Him, and grow their roots deep. Pray for strength and wisdom for us as we walk with**

these children of God.

Please keep praying for José and Tomás, for their salvation! (they are both on the photo, we gathered for smores one evening and it was a good time for everybody. The night ended with Dave praying with Tomás).

Pray also for Lucinda and Anita (first and second from left, on the photo below). Anita came to Jesus some time ago and has been joining us for the women's study and for Sunday service as well. Her husband Paulo also came to Jesus last week! And Lucinda is Anita's sister

and was on the Alpha meeting. She got healed from her back and came to talk with us during the week. She was so moved by what the Lord had done for her and just wanted to know more. She had been on medication for pain for so many years and since Sunday the 4th of July she didn't need it anymore. She understood the gospel and believed!

Once again we say, **rejoice with us for those who have been brought from death to life!**

In His strength,
Nuno, Gila, Leonor and Diogo
