From the Notes of Ed and Gerry...

As I (Gerry) am writing this letter several thoughts come to my mind. Although the physical harvest this summer doesn't seem to be nearly as plentiful as in years gone by, spiritual opportunities seem to be all around us. This summer is more open and we are taking advantage of these opportunities.

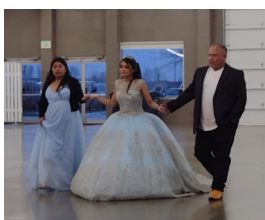

Last week I was involved in a week long Kid's Club (with Child Evangelism Fellowship) at an apartment complex especially for agricultural workers. What a joy to be at this Club in which the kid's begged us to return. It was a joy to present God's Word to them. We have been holding classes in this apartment complex for the last couple of years.

Infaiith's Camp Living Word is also coming up. After 3 years of not being able to hold camp we are excited to be going for a week in the middle of July. We will be taking a car load or two of kids from our field. It will be so exciting to be back together at this camp.

Camp 3 years ago

Visiting and attending many events among the families we minister to has comprised much of our time in the last couple of months. There has been Quinceanera's (15th Birthday Celebrations for girls)..

.....and a Tamalera (an all day tamale making get together for family members) to name a few. It seems that people are more relaxed at these events and talk among families flows freely.

This has given us much time to spend encouraging and praying for people we care about. What a privilege to listen and join in with God's prospective.

Here are some current prayer requests:

* VBS's----We have a couple of VBS's (Vacation Bible Schools) scheduled which lead into weekly Bible Clubs during the school year. Please pray that God would lead into more opportunities with families.

*Camp Living Word will be held July 24-29----Please pray that God would protect the camp from injury and that this week would be spiritually fruitful in the lives of all who attend.

*Visiting with families----Please pray that God would bless this ministry and open more doors into more families homes. This is a favorite ministry of ours. We love visiting and praying with others.
